MAN'S
S/S 2022
COLLECTION

URBANWEAR

technology tailored

Among the product lines introduced by MOMODESIGN we find the new URBANWEAR collection.

Surprising and breaking the ordinary is part of the evolutionary spirit of MOMODESIGN, which bases its stylistic codes on innovation and design.

The Urbanwear collection satisfies the more technical needs of those who live the city in a dynamic way, with the motorbike and/or bicycle, in a metropolitan everyday life.

There are three keywords that frame and define the collection:

TECHONOLOGY TAILORED - HYPER JACKET - EASY STYLE

Balanced volumes and innovative fabrics, designed ad hoc for outdoor and beyond.

The contemporary, energetic, contrasting Milan of today is one of the main inspirations of MOMODESIGN style, which seeks refined functionality, combining transversal accessories that play on dynamism and easy comfort use.

The careful research of the most advanced fabric technology is combined with the search for an easy chic metropolitan style, in which different worlds are mixed, from sporty to elegant, creating a new stylistic code, for a transversal collection in its use.

Outwear, shirts, t shirts, sweatshirts, caps and trousers made of technical fabrics, but with minimal and fashion oriented cuts and with technical details that complete the garments together with the refined color palette.

A collection developed by Golf 360 Srl and designed by the stylist Maria Teresa Castelli, in line with the philosophy of MOMODESIGN, which is investing in innovation and research, developing a technological hub to guarantee high quality and constant innovation.

Be elegant, be modern, be hi-tech... be MOMODESIGN URBANWEAR!

PROGETTO
GRAPHENE™
INSIDE THE FUTURE

GRAPHENE™

Graphene is the new textile material that will change the way to make garment.

The unique properties of graphene, such as the thermal conductivity, electrostatic, lightness and antibacterial, make it an interesting material for different application.

Graphene is an innovative nanotech soft and light material, characterized by high conductive capacities that care the regulation of body temperature.

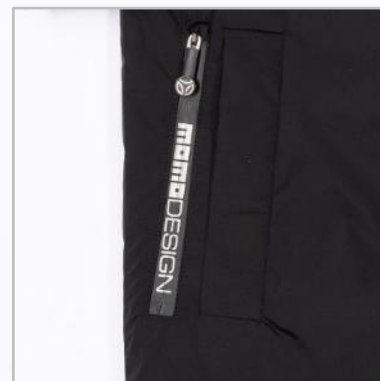

The warm in hot weather conditions is dispersed, while in the presence of low cold temperatures it is equally distributed stabilizing inside temperature.

TORONTO – MD-JK2001

GRAPHENE™
INSIDE THE FUTURE

The TORONTO long jacket has been designed to provide unique thermal insulation. Thanks to the Graphene wadding, it is suitable for harsh winter climates, without sacrificing "hyper" lightness and comfort.

The Italian outer fabric is treated DWR to resist to water.

To adapt the jacket to your look, hoods are available in different colors, interchangeable and also sold separately.

Many personalized details and cutting-edge technical finishes, such as the graphite zipper and the waterproof pocket with logo, make this jacket the icon of the MOMODESIGN URBANWEAR 2020 collection.

Features:

- External DWR fabric Made in Italy
- Graphene padding for maximum thermal insulation of the body
- Transparent inside window
- Removable and interchangeable hood in various colors with reflex print
- Print of the logo inside the placket
- 3 external pockets of which 1 with a waterproof zipper with logo
- 1 internal pocket with zipper
- Graphite double slider front zipper
- Personalized zipper pulls and snaps
- Exclusive stud with logo on the wrist
- 3 possible color variations

OUTWEAR

TAIPEI - MD-JK2201

TAIPEI - MD-JK2201

TAIPEI is a shell jacket made of nylon with the innovative Graphene membrane.

The garment, available in five color variants, combined with fluorescent yellow taping inside, is perfect both in spring and summer, as it is able to guarantee the right body temperature in any climate, thanks to the thermal insulation of Graphene and the DWR treatment.

The drawstring on the bottom allows you to better adapt the fit, while the Velcro closure on the cuffs performs a windproof function.

The single-slider front zip in graphite, the two waterproof zippers of the pockets, one of which is personalized, the fluorescent yellow MOMODESIGN print on the back combined with the taping, the exclusive Graphene silicone patch and the personalized zip pullers, complete this garment.

Features:

- DWR fabric with Graphene membrane
- Fluo yellow inside taping
- Mono slider front zip in graphite
- Two external pockets with coated zip, one with logo
- Custom zip pullers
- Snaps MOMODESIGN
- Hidden drawstring at the bottom with silicone stopper
