

MOMODESIGN

MAN'S
F/W 21-22
COLLECTION

URBANWEAR

technology tailored

An Urbanwear collection that combines the more technical needs of those who live the city in a dynamic way, with motorcycles and / or bicycles, with metropolitan daily life.

Three keywords that frame the Fall / Winter 20-21 collection: TAILOR-MADE TECHNOLOGY - DYNAMIC - EASY STYLE.

Balanced volumes and innovative fabrics, designed specifically for the outdoors and beyond.

The careful research of the most advanced technologies in fabrics is combined with the search for an easy chic metropolitan style, where the contaminations between different worlds, from sporty to elegant, mix together creating a new stylistic code, for a transversal collection in its use. .

Be elegant, be modern, be hi-tech... be MOMODESIGN URBANWEAR!

PROGETTO
GRAPHENE™
INSIDE THE FUTURE

GRAPHENE™

Graphene is the new textile material that will change the way to make garment.

The unique properties of graphene, such as the thermal conductivity, electrostatic, lightness and antibacterial, make it an interesting material for different application.

Graphene is an innovative nanotech soft and light material, characterized by high conductive capacities that care the regulation of body temperature.

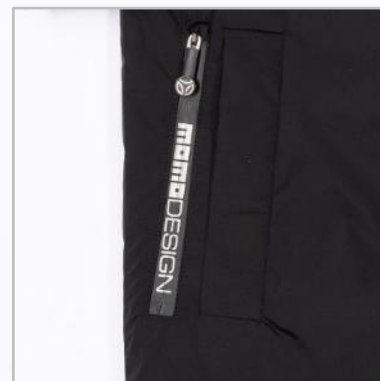

The warm in hot weather conditions is dispersed, while in the presence of low cold temperatures it is equally distributed stabilizing inside temperature.

CAMBRIDGE - MD-JK2111

COLORS

CAMBRIDGE – MD-JK2111

CAMBRIDGE is a light down jacket with biker collar, inspired by the line of the classic Momo design mid-season down jacket.

The garment is characterized by an external fabric with a herringbone print, also present in the internal profiles and on the internal pocket. The DWR fabrics guarantee the waterproofness of the garment. The 80 g Valthern wadding guarantees the right warming of the body in the autumn period. All fabrics are of Italian origin.

The garment is presented in two color variants:

The first is more casual, with colored interiors, red PU MOMODESIGN print applied on the back, double-slider front zip and side pockets zip with red chain and gray ribbon that match the colors of the garment.

The second more sober, with black interiors, black reflex print on the back and black zips

Finally, there is no lack of MOMODESIGN customizations in the automatic and zip pullers.

Features:

- Italian DWR fabrics
- Double slider front zipper with colored ribbon and chain
- Two external zip pockets with colored ribbon and chain
- Internal pocket in printed fabric
- Custom zipper pullers
- Automatic MOMODESIGN
- MOMODESIGN print on the back

ASPEN – MD-JK2115

ASPEN is a hooded jacket with clean lines and can be offered with three different fabrics:

1 - in the first variant the fabric of "Lanificio Roma", combining the well-known properties of wool with the more technical ones of the scuba fabric, gives life to an outerwear with technical contents and a formal appearance, suitable for the first cold of the autumn season

2 - in the second variant the wool blend scuba fabric gives the garment a heavier and more sporty look

3 - in the third variant the scuba fabric with external pique represents the lighter and more casual alternative of this model

At the rear, the vertical band on the back and hood, which characterizes most of the garments, is made by turning the fabric inside out.

The garment is also characterized by a discreet reflex rectangle with laserized logo, positioned in the lower back, which will make you visible even in the dark.

The garment is completed by the rubberized front zipper with single slider pneumatic effect and the customized zipper puller.

Features:

- Italian fabric
- Rubberized front zip with single slider pneumatic effect
- Two external pockets without zipper
- Personalized zipper puller
- Reflex rectangle with laserized logo on the back
- 3 possible variants of fabric

BRISBANE – MD-JK2116

BRISBANE is a jacket with a high collar available in three fabric variants:

1 - in the first variant the fabric of "Lanificio Roma", combining the well-known properties of wool with the more technical ones of the scuba fabric, gives life to an outerwear with technical contents and a formal appearance, suitable for the first cold of the autumn season

2 - in the second variant the wool blend scuba fabric gives the garment a heavier and more sporty look

3 - in the third variant the scuba fabric with external pique represents the lighter and more casual alternative of this model

The garment can be made more gritty by the orange zip present in two of the three variants, or be a more sober garment in the tone-on-tone variant. Whether you choose the version with a contrasting zip or the version in tone, BRISBANE remains a dynamic garment that adapts to multiple lifestyles.

The rubberized label placed below the rear collar, the two pockets closed by hidden zips and the customized zipper puller complete this outerwear.

Features:

- Italian fabric
- Mono slider front zip
- Two external pockets with hidden zips
- Personalized zipper puller
- Reflex rectangle with lasered logo on the back
- 3 possible fabric variants

WELLINGTON – MD-VE2111

Wellington is the vest that closes the triad of garments in scuba fabric, which can also be made in three fabrics:

1 - in the first variant the fabric of "Lanificio Roma", combining the well-known properties of wool with the more technical ones of the scuba fabric, gives life to an outerwear with technical contents and a formal appearance, suitable for the first cold of the autumn season

2 - in the second variant the wool blend scuba fabric gives the garment a heavier and more sporty look

3 - in the third variant the scuba fabric with external pique represents the lighter and more casual alternative of this model

It is a versatile garment: in autumn to protect yourself on cooler days; in winter when you want to have a higher degree of warmth without sacrificing comfort and style. The details, different depending on the fabric variant chosen, make it a classic or casual garment.

The garment is completed by the single-slider front zipper in graphite with or without fluorescent sewing, the rubberized label and the personalized zipper puller.

Features:

- Italian fabric
- Mono slider front zip in graphite
- Two external pockets without zip
- Momodesign rubberized label

WOOL

LA PAZ is a round-sleeved sweater with a high collar. The particular composition of the yarn makes this garment technical despite the presence of a high percentage of wool. The high collar makes it particularly suitable to be worn alone in the autumn season or to complete an outfit in the winter season. The characteristic rubberized label is present on the chest.

Features:

- European yarn
- Exclusive rubberized label on the sleeve

Tech specs:

- Sizes: S – M – L – XL – XXL
- Content:
 - ❖ 50% WM – 50% PC – European yarn 
- Made in Europe 

Colors:

- BLACK with WHITE band
- NAVY BLUE with GRAY MEL band:
- GREEN MIL. with BLACK band

ACCESSORIES

HELSINKI – MD-AC2111

GRAPHENE™
INSIDE THE FUTURE

HELSINKY is a cap made of double fabric: the fleece on the outside guarantees a good degree of warmth, but the real innovation is the Graphene fabric inside.

The unique properties of Graphene allow for thermal insulation from the outside and at the same time, the exceptional conductivity of this material allows it to "bring" the heat to the coldest areas.

However, the real innovation brought by this fabric is the natural certified antiviral property of Graphene, capable of reducing the viral load by 99% without further antiviral or antibacterial treatments, so much so that it has received the relative certificate in the laboratory.

The small reflex print makes this garment not only fashionable, but will make you more visible on the street on dark winter days.

REYKIAVIK — MD - AC2112

GRAPHENE™
INSIDE THE FUTURE

REYKIAVIK is a neck warmer that perfectly matches the HELSINKY cap; like the latter, it is composed of a double fabric: the fleece on the outside guarantees a good degree of warmth, but the real innovation is the Graphene fabric inside.

The unique properties of Graphene allow for thermal insulation from the outside and at the same time, the exceptional conductivity of this material allows it to "bring" the heat to the coldest areas. However, the real innovation brought by this fabric is the natural certified antiviral property of Graphene, capable of reducing the viral load by 99% without further antiviral or antibacterial treatments, so much so that it has received the relative certificate in the laboratory.

ANCHORAGE — MD - AC2113

Features:

- Antiviral Graphene fabric
- Reflex print
- Iron-on brand label

Tech specs:

- Sizes: One fits all
- Content:
 - ❖ Outside: 50% WM – 50% PC – European yarn 
 - ❖ Inside: 88,7% RY – 2,3% GRAPHENE – 9% EA
- Made in Europe 

ANCHORAGE is the version of the HELSINKI cap but with the outer part in wool blend like knitwear instead of fleece while the interior remains in Graphene fabric. The exclusive properties of Graphene, in fact, allow for thermal insulation from the outside and at the same time, the exceptional conductivity of this material allows it to "bring" the heat to the coldest areas.

However, the real innovation brought by this fabric is the natural certified antiviral property of Graphene, capable of reducing the viral load by 99% without further antiviral or antibacterial treatments, so much so that it has received the relative certificate in the laboratory.

The small reflex print makes this garment not only fashionable, but will help you to be more visible on the street on dark winter days.
